CAREER OBJECTIVES

I'm a Software Engineer with a strong foundation in developing and maintaining robust applications using cutting-edge technologies. Proficient in Laravel, with experience in building HR management systems and implementing complex business logic such as attendance tracking and payroll processing. Adept at problem-solving, code optimization, and delivering high-quality software solutions. Passionate about continuous learning and staying up-to-date with industry trends, ensuring the delivery of efficient, scalable, and secure software solutions.

KEY COMPETENCIES

HTML	Reactjs	MySql
CSS	PHP	Agile methodology
Bootstrap	Laravel	Software Documentation
Javascript	InertiaJs	C, C++

PROFESSIONAL EXPERIENCE

Super Star Group (Bizz Solutions PLC) **March 2024 - Present**
Software Engineer Intern

As a Software Engineer Intern, I have actively contributed to real-time projects, including HR Management Systems, Inventory Management Systems, Dynamic Portfolios, and E-Commerce platforms. Leveraging technologies such as Laravel, InertiaJS, HTML, CSS, Bootstrap, and JavaScript, I developed and delivered high-quality applications. All projects were executed using Agile methodology, ensuring iterative development and continuous improvement. Additionally, I have hands-on experience in creating comprehensive technical documentation, including SRS (Software Requirement Specifications), STD (Software Test Documentation), and other essential project documents. Assisted project managers in planning and executing various projects, ensuring adherence to project timelines and deliverables. Monitored project budgets, tracked expenses, and prepared financial reports to ensure cost-effectiveness and adherence to financial guidelines. Also doing risk management, Scheduling etc.

Genex infosys **January 2023 - June 2023**
Customer Service Associate

At Genex Infosys, I contributed to various processes, most notably within the Foodpanda project, where I worked on tracking both products and riders. This role involved ensuring real-time monitoring and improving the efficiency of delivery operations, highlighting my ability to handle critical tasks in a fast-paced environment.
